April 14, 2020

Parents/Guardians & Students,

Good morning and we hope that you had a wonderful long Easter weekend. I will be sending out weekly update letters to let student and parents/guardians know what the week ahead will look like. It will be a brief summary. Our teachers will have summaries on their Google Classrooms. We asked our teachers to invite all Parents/Guardians to be able to view their students' Google Classroom, so they can know what assignments their student is working on. If you have not received an invite to a Google Classroom and would like an invite, please email the teacher.

Please keep working through your assignments. Reach out to your teachers through email or Google Meet to get answers to questions or concerns. They are anxiously awaiting to hear from you. We miss seeing you and we hope you are well. Keep up the good work!

Go Comets!

Here is a weekly summary of classes for April 14-17

Biology 30

Chapter 16 (reproduction) test today.

Students to review test on goformative tomorrow and start Chapter 17 vocab.
