May 4, 2020

Parents/Guardians & Students,

We hope you had a wonderful spring break. It is time to get back to school work and continue learning! In the next week, we will be sending out instructions on how to sign up for classes for next year. It will be through your PowerSchool login where you normally check your marks. We will provide an explanation of courses that will/may be offered next year. Option classes will be chosen based on interest from students and the ability to schedule these classes. More details will follow.

Important Note: Students will receive credit for all classes that they were enrolled in during Semester 2 in the 2019-20 school year provided they have put forth an effort to finish assignments. Options classes are not being offered at the moment but students will still receive credit for them.

Go Comets!

Here is a weekly summary of classes for April 20-24
